

Sofia ToFWall condition:

→ at least one up or down PMT has signal

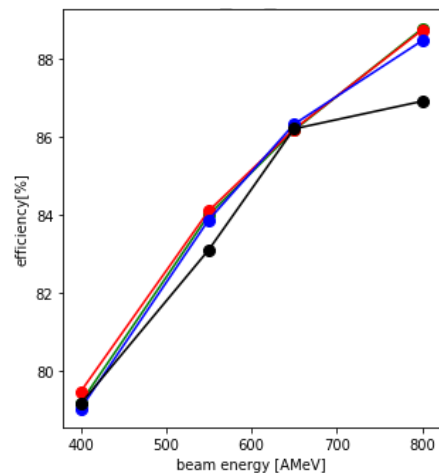

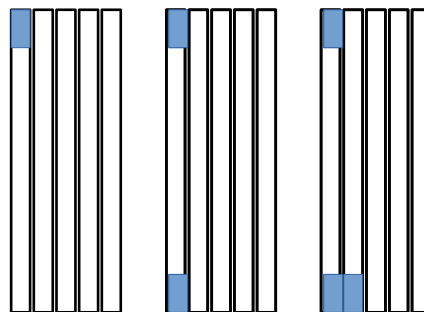

Allowed:

Sofia ToFWall condition:

→ at least one up or down PMT has signal
→ hits in multiple bars are allowed, if they are neighbours (e.g. detID 14 & 15)

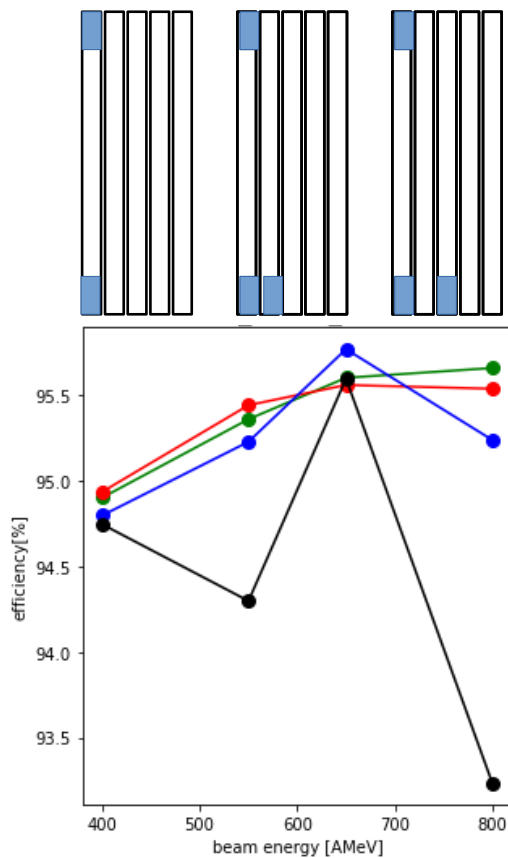

Allowed:

Sofia ToFWall condition:

→ Exact one bar with up AND down PMT signal

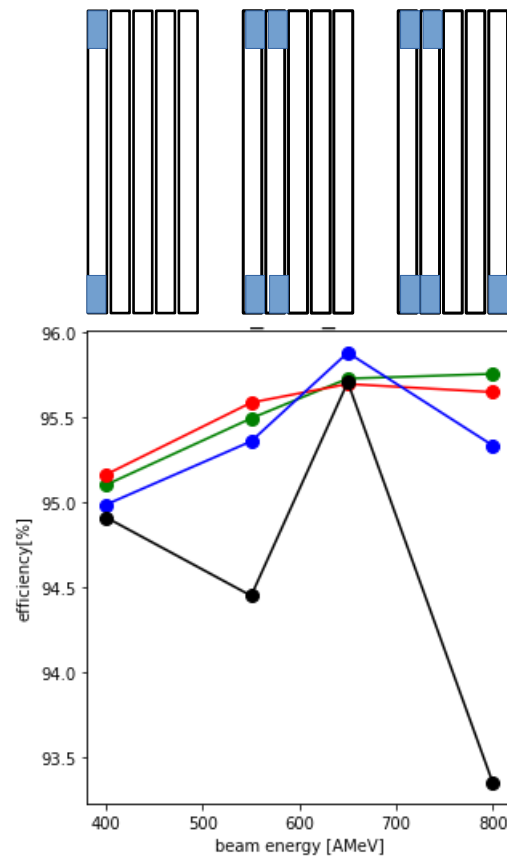

Allowed:

Sofia ToFWall condition:

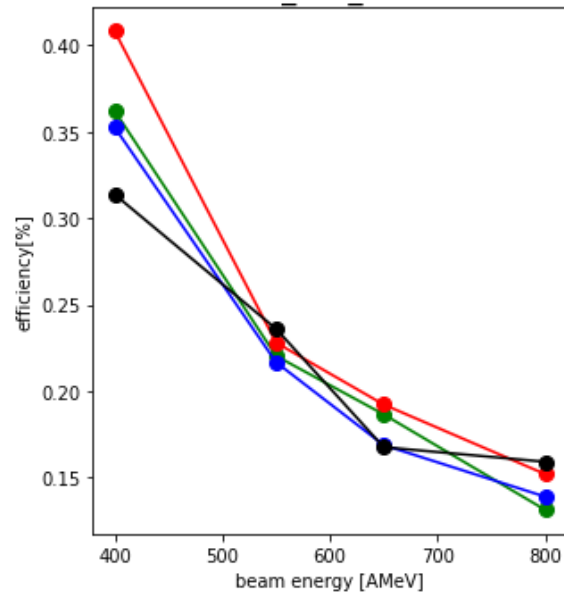

→ One or two neighbouring bars with up AND down PMT signal

Allowed:

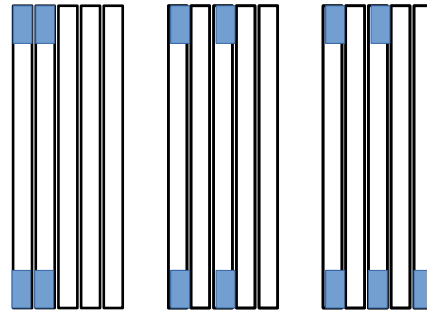

Sofia ToFWall condition:

→ two bars with up AND down PMT signal

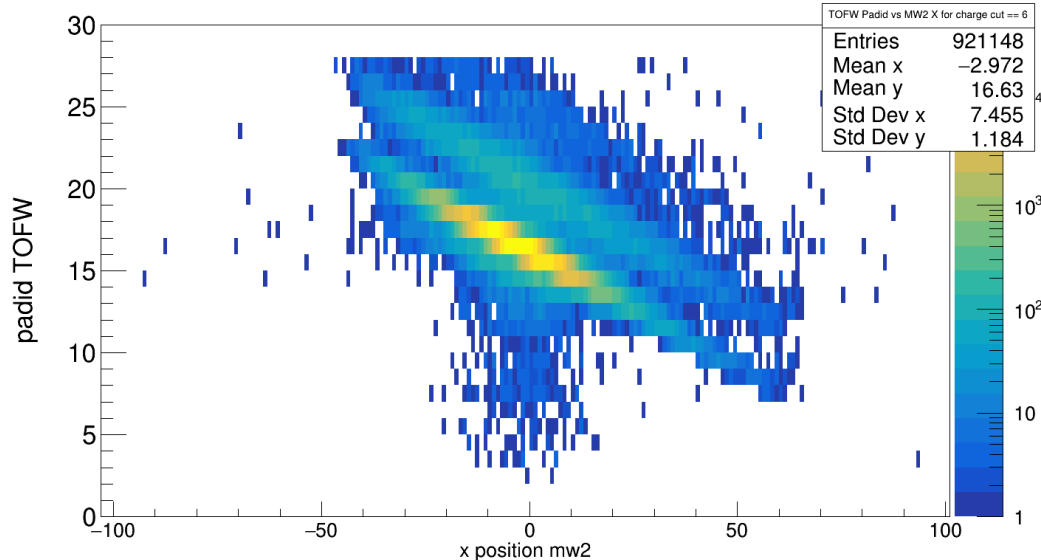

Allowed:

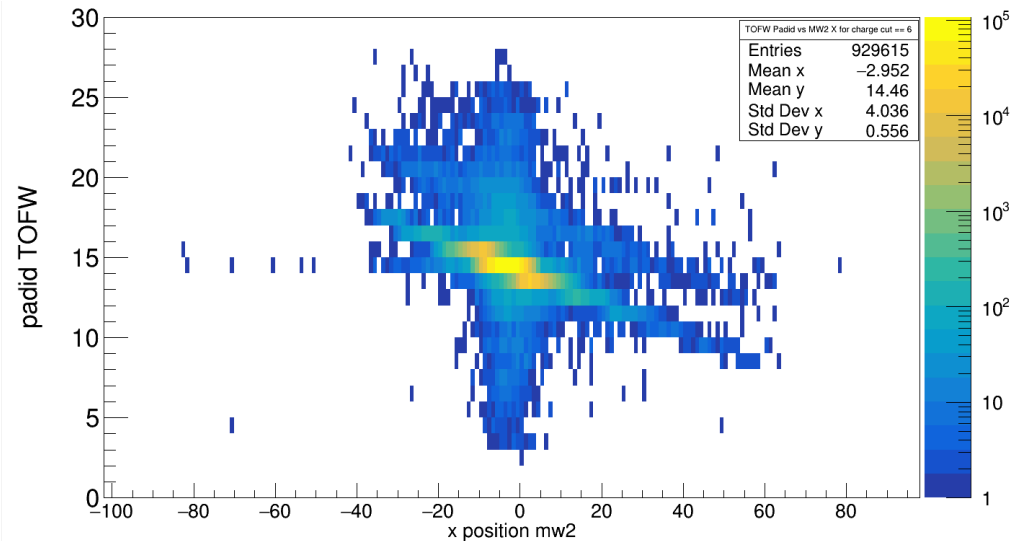

Sofia TOF DetID vs xMW2

Carbon target, 2cm, 400 AMeV

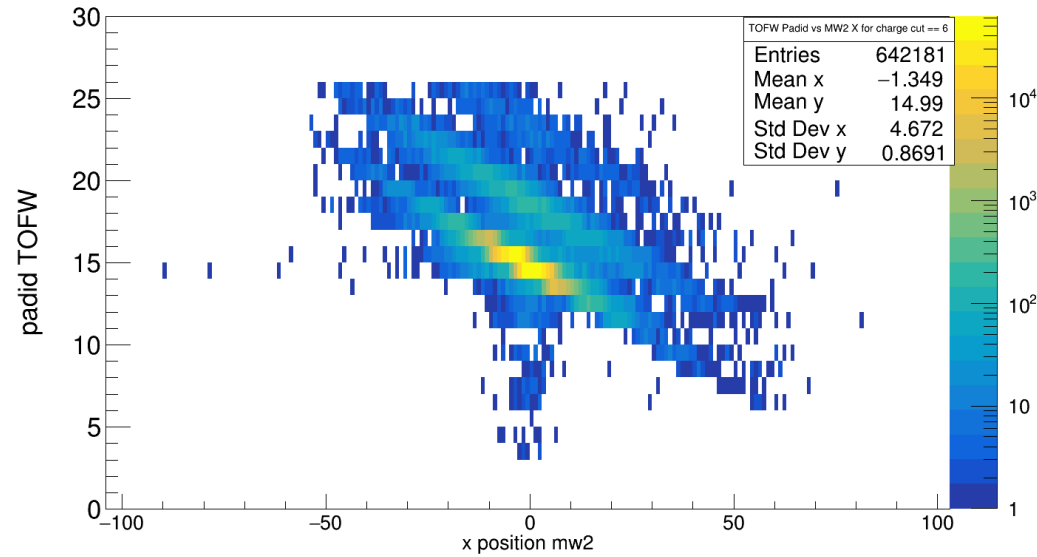

Empty target, 400 AMeV

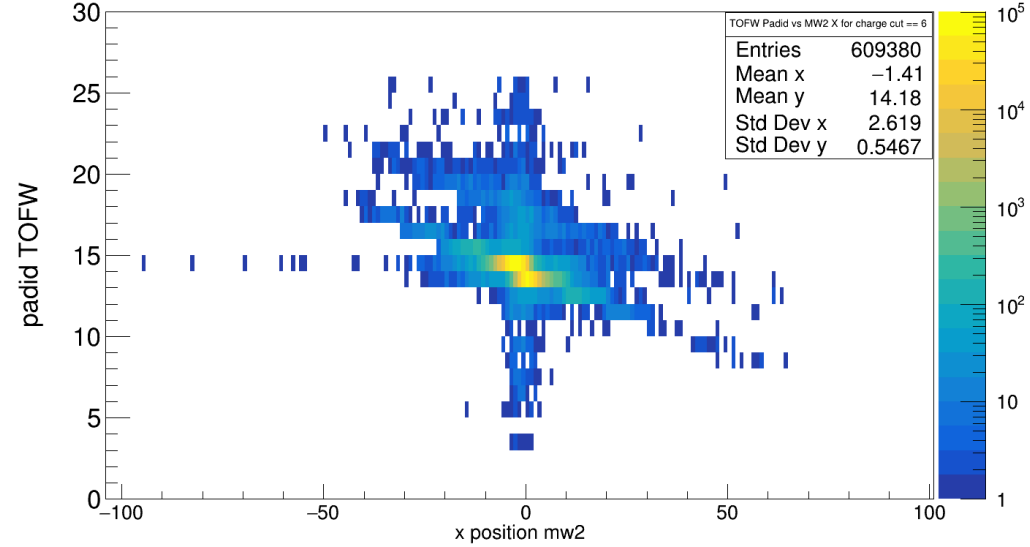

Sofia TOF DetID vs xMW2

Carbon target, 2cm, 800 AMeV

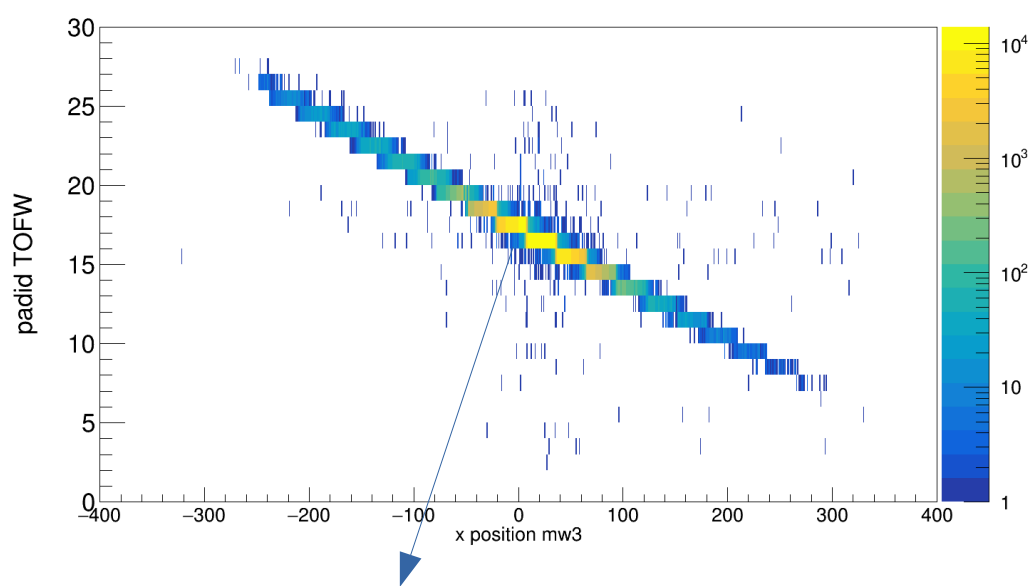

Empty target, 800 AMeV

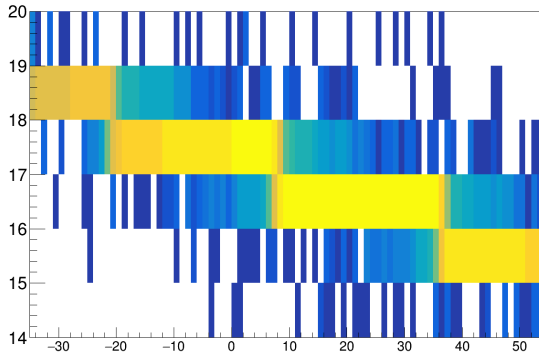

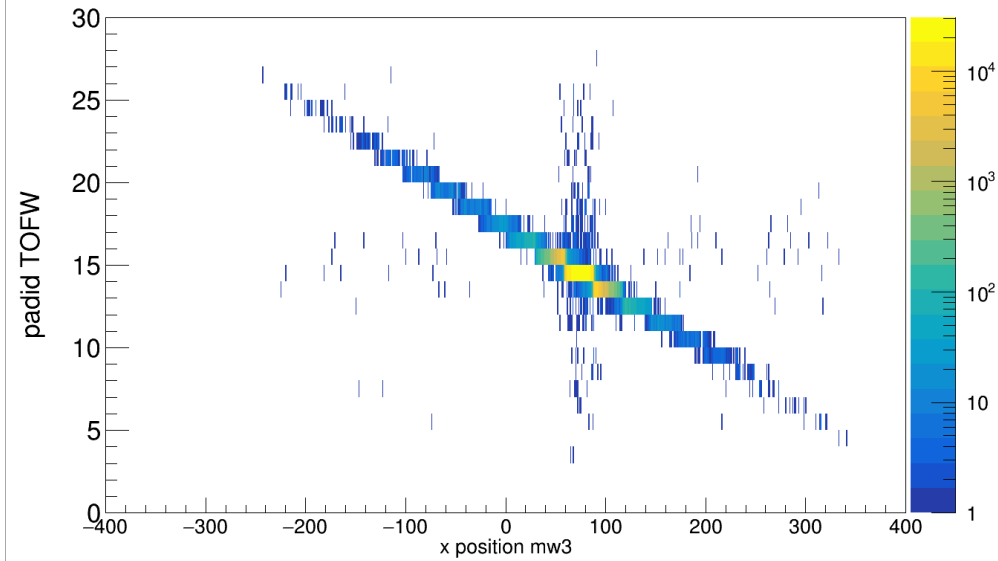

Sofia TOF DetID vs xMW3

Carbon target, 2cm, 400 AMeV

Empty target, 400 AMeV

Sofia ToFWall Pad size readable = 30mm

Scale isotope correction according to Charge Changing Cross Section
